SSR MOTORSPORTS

SSR Motorsports, since 2002 we have been building the products that open up the world of riding.

What sets SSR apart is our focus on bringing cutting edge design, superior engineering, and value for money to the smaller displacement market. We believe that every enthusiast should be able to afford a brand new powersport product from a comprehensive dealer network, with the backing of an expansive distribution center stocked with readily available replacement parts.

Thank you for your interest, whether you are looking for a vehicle for yourself or a vehicle to share the riding experience with your family; whether your interest is ribbons of asphalt or your favorite stretch of dirt road; our knowledgeable and experienced staff is on hand to provide you with the customer service and technical support you need.

QUOTABLE QUOTES

NTATATKE

- "Depending where you are in your dirt bike life, having a good-handling and respectably powered machine with a price tag that is appetizing might just be the ticket for you. The SSR SR300S fits in this niche quite nicely."
- "The SSR SR189 is a good-looking machine with features that meet or surpass those of any modern play bike for a fraction of the price of others."

- "Luckily for my son and I, we have a big desert in our backyard to ride SSR's SR125 and SR170TRs. We made a makeshift turn track for some good old-fashioned father-son competition, and we had a blast."
