#### ABOUT THE APP

#### **General Information**

App Name Version Size Play Store Shuachedashi | 刷车大师 1.1.4 31.2 MB N/A

#### Requirement

System Storage Bluetooth Android 4.2 or later 100 MB available space 3.0 or higher

#### DOWNLOAD THE APP

Scan the QR code above

Or Go to

http://www.ssrmotorsports.com/scds.apk

#### INSTALL THE APP

- Go to Settings and then Security;
- Turn on the button shown by the RED arrow to allow installation from unknown sources;
- 3. Open the **scds.apk** file you have just downloaded and start the installation.

## LANGUAGE SETTING

- 1. Open the App;
- 2. Press the button shown by the RED arrow to bypass the opening page;

#### LANGUAGE SETTING

3. The PROFILE button is on the upper left. Press it now.

## LANGUAGE SETTING

- 4. The fourth option is LANGUAGE. Press it and change to English;
- 5. Restart your App. Now the language setting is applied.

### CONNECT TO VEHICLE

- 1. Turn on Bluetooth in your phone;
- 2. Make sure your SEEV-800 is within 30 feet of your phone;
- 3. Turn your scooter on and keep it still;
- 4. Find the label pictured below in the Accessory Box that came with your new SEEV-800.

### CONNECT TO VEHICLE

- 5. Open your App and go to PROFILE;
- 6. Press Bluetooth and type the highlighted number when prompted.

7. Press SAVE and go back.You will see a code (e.g. 8C:DE:52:F6:32:9E) show up in the upper right corner.

#### ATTENTION

- 1. Your SEEV-800 can only connect to one mobile device at a time;
- 2. Make sure your App is connected to your scooter before you start any operations;
- The App will try 3 times to detect your scooter automatically; after the 3<sup>rd</sup> failure, you will have to press the Bluetooth button on the upper right corner to restart the detection;
- Never twist the throttle while changing modes or settings and never use the App while your SEEV-800 is in motion.

This App offers you 5 different Riding Modes.

- Default
- Sport
- LE Power Saving
- ExtremeLE Extreme Power Saving
- Custom

You can apply a mode to your SEEV-800 by simply pressing the buttons shown.

Under CUSTOM MODE, you have full control of the performance of your SEEV-800.

- Speed
- a Acceleration
- climb Torque
- Power

You can also drag the curve below to adjust the Power/Throttle-Position Rate.

- Power
- CC Throttle Position
